جامعة حمد بن خليفة
HAMAD BIN KHALIFA UNIVERSITY

PROBLEM

Significant variance in English proficiency among students in government schools.

- All students placed in the same class, hindering effective learning and creating disparities.
- Existing English curriculum lacks adequate challenges for high-achieving girls and support for those struggling.
- General disconnect between the curriculum and diverse learning needs, hindering overall English language proficiency.

Two Students, Two Realities.

In one picture, a girl confidently crafts proficient English; in the other, another struggles.

EVIDENCE

RAND Report Findings:
The 2007 RAND report identifies gaps in the curriculum, hindering language progression and demanding approaches.

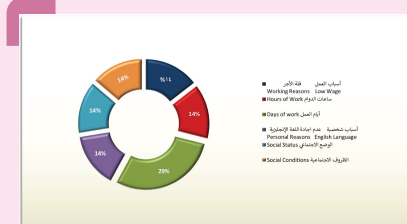

Language Bridge Programs:
The existence of language bridge programs highlights a gap in basic skills, affecting high school students' entry into college or the labor market.

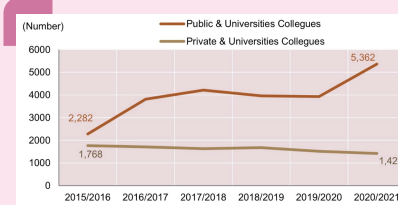

Teacher Challenges:
Lack of teacher training, autonomy, and a shortage further contribute to poor language acquisition in government schools.

Lower Completion Rates, Limited University Access

Qatari unemployment (15 years and above) with secondary education, not willing to work in private sector by reasons

Number of university graduates by sector (2015/2016 - 2020/2021)

STAKEHOLDER

وزارة التربية والتعليم والتعليم العالي
Ministry of Education and Higher Education
دولة قطر - State of Qatar

COLLABORATORS

Teachers

Parents

Educational specialists

BENEFICIARIES

Students in grades 7, 8, and 9 (aged between 11-14)

Pilot School: Hind bint Amr preparatory school for girls

INPUTS

Staff and teacher time
8 teachers, 7 hours per day

Training Time
2 weeks of training for teachers on the new curriculum

Expertise
5 curriculum development specialists

Testing Materials
3 curriculum plans, including powerpoint presentations

Space
20 regular classrooms

Technology
2 computer lab and 2 projectors

OUTPUTS

3 different types of curriculums

3 English proficiency assessments (including reading, writing, listening, grammar, speaking)

3 leveled classes (beginner, intermediate, advanced)

250 students placed in the correct leveled English classes

5 teacher training sessions, covering TESOL, game-based teaching, and storytelling.

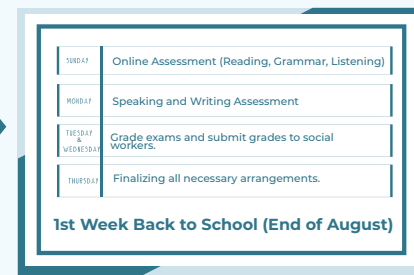

SOLUTION

June 2024 - Training of teachers

August 2024 - English proficiency assessment & assigning students to the appropriate english classes

The following Sunday, students will be assigned to a classroom based on their score out of 50.

Beginner Class:
(0 to 17)

Intermediate Class:
(18 to 35)

Advanced Class:
(36 to 50)

December 2024 - Reassess students levels through exam grades

June 2025 - Reassess students levels through exam grades

OUTCOMES

Short term

- Increase in the literacy rates by **5%**
- Increase in the quality of English writing and reading outcomes by **5%**
- Increase in the test scores result by **5%**
- **10%** increases in admission rates to English instruction universities
- Matching the extreme gaps between students of the same grade levels
- Increasing the capacity of the teachers to deliver targeted curriculum

Long term

- Decrease of number of students entering the Bridge Programs in the long run by **10%**
- Progression towards being admitted to the top-tier Education City universities
- Progression from beginner levels of English towards advanced by the end of the middle school

RISKS

Lack of measurable and tangible results, and individual learning abilities.

Assessment Accuracy

Resource Allocation

SDGs
