

EMPOWERING TEACHER TASK FORCE

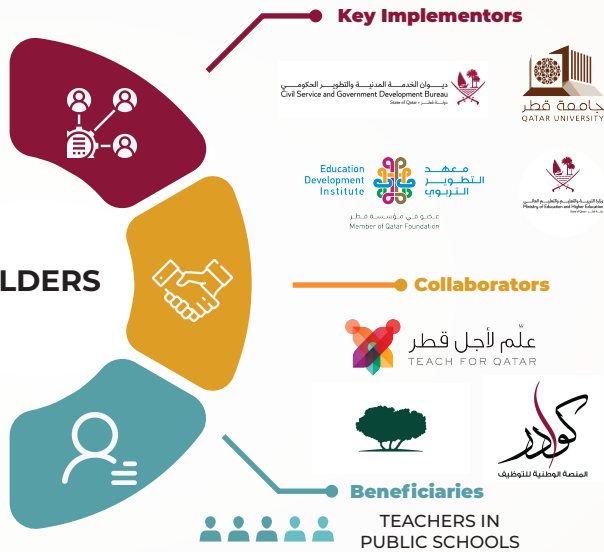

• PROBLEM

How might we introduce policy practices that retain national teachers in public school education?

• CONTEXTUALIZE

- There are plenty of national programs that aim to attract nationals to become educators in the public school system like Khebrat, Tamheen, Tomooh, Teach for Qatar, and others. **However, there is a lack of programs that address retaining national teachers.**
- Trends in national statistics on teachers indicate that a small number of new teachers join every year, but the **total number of national teachers does not reflect the increase due to teacher turnover.**

STAKEHOLDERS

RESULTS CHAIN

PROFESSIONAL LEARNING COMMUNITY (PLC)

Evaluation of national teachers statistics and satisfaction

Objective:

To promote and foster a collaborative and highly motivated national teacher task force in public schools in Qatar.

Outcome:

Increased retention rates of national teachers in public schools.

Indicator: % Decrease in national teacher turnover

A Professional Learning Community, or PLC, is a group of educators that meets regularly, shares expertise, and works collaboratively to improve teaching skills and the academic performance of students.

Indicator: # Identified selected schools for implementation

Output 1:

Successful implementation of the PLCs model in training programs and identified schools with high attrition rates.

Activity 1.1:

Development of the PLCs handbook by EDI, with the support of MOEHE, with a focus on mapping out the main challenges teachers are facing, and integration of the model in teacher training programs, QU-COE, and public schools

Indicator 1.1: # Handbook users/beneficiaries

Activity 1.2:

Development of teacher's network within the Civil Service recruitment platform "Kawader."

Indicator 1.2: # Network members/users

Output 2:

Number of collaborations within and between a school through the implementation of PLCs as a practice.

Activity 2.1:

Selection of schools with the highest teacher turnover rates, by the MOEHE, to pilot PLCs.

Indicator 2: # Collaboration within and between schools

Activity 2.2:

Run review cycles of the teacher's engagement and utilization of PLCs.

Indicator 2.2: # Structured PLC meetings per month

Monitoring & Evaluation

• USER PERSONA 1

Reem – is an ambitious fresh graduate who is a Mathematics teacher. She is motivated to apply her freshly acquired skills from her education degree and teacher's training. Reem is looking to improve the student's academic performance. Despite her readiness, she can't find a mentor in her grade level who could support her with mentorship advice and feels overwhelmed with finding a work-life balance.

Academic Background – B.Sc. in Mathematics
School Level – Primary School
Age – 23

Wants

To increase students' performance in mathematics.

To find a balance between her job and personal life.

Needs

To collaborate with other experienced educators.

To have a mentor to help her find work-life balance.

Frustrations

Her lack of teaching experience.

Students' poor academic performance outcomes.

Nationality

Qatari

• USER PERSONA 2

Fatima – is a highly experienced Arabic teacher with over 10 years of experience who has recently been challenged with increased classroom size. Her work ethic has always been exemplary but is struggling to get the support she needs from the school administration. Her last resort is to transfer to a school with smaller classroom sizes since she is still passionate about teaching and doesn't want to resign.

Academic Background – B.A. in Arabic Language
School Level – Middle School
Age – 35

Wants

To have a small classroom size.

To have support from the school administration.

Needs

To receive support with classroom management.

To have flexible school transfer policies and mechanisms.

Frustrations

The crowded classrooms increase workload.

Uncooperative school administration.

Nationality

Qatari
