

HOW MIGHT WE?

How might we create an initiative for Qatari residents so that food waste is reduced during the month of Ramadan?

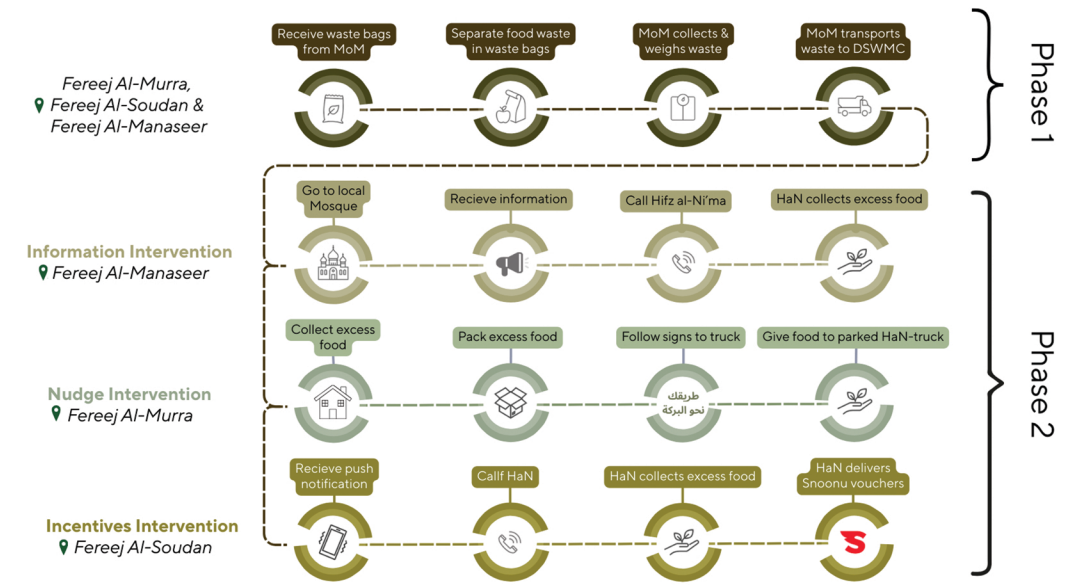

STAKEHOLDERS & PARTNERS

USER JOURNEY MAP

BARAKAH INITIATIVE PHASED PROCESS

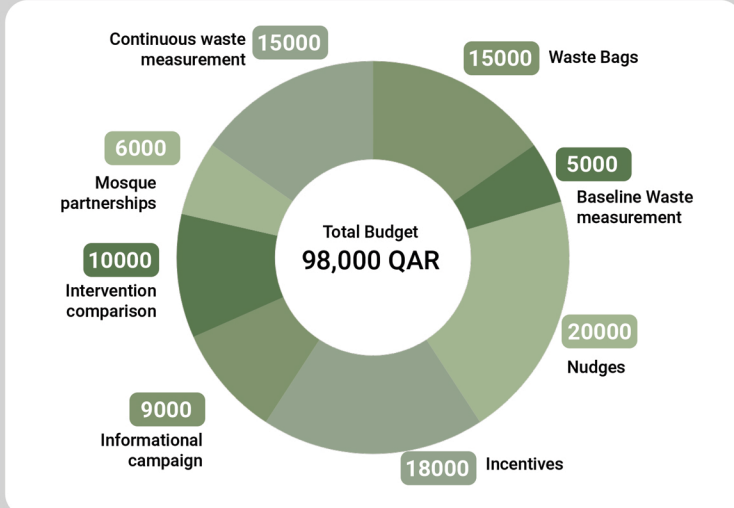

INPUT

DIRECT INPUTS	INDIRECT INPUTS
Color-coded wastebags; monitor food waste & transport to DSWMC. 2 Master of SECC students design Nudge posters for al-Murra. Station a truck in al-Murra (nudge) for food collection & redistribution. Vouchers for reward membership points system (incentive).	Waste collection & weighing. Imams of all mosques in al-Manaseer inform residents about Hifz al-Ni'ma (information). Collects & redistributes donated food. Logs number of calls and redistributed meals. Geo-targeted push notifications to al-Soudan (incentive) about rewards for using Hifz al-Ni'ma.

THE BUDGET

5-YEAR INITIATIVE BUDGET (QAR)

ACTIVITIES

- Distribute bags + 2 info sheets to all households in Al-Soudan, al-Manaseer, and Al-Murra.
- 4 municipal trucks collect, weigh & transfer food waste to DSWMC for composting.
- Deliver Hifz al-Ni'ma awareness segments through imams in al-Manaseer's 2 mosques.
- 2 HBKU students design 60 signs to direct residents of al-Murra to Hifz al-Ni'ma truck.
- Cycle 3 Hifz al-Ni'ma trucks & 6 volunteers for daily pickup + redistribution; log calls & meals.

- Send 2 Snoonu push notifications/day in Al-Soudan + reward point voucher for donors/donation.
- Continuously weigh and log all waste via the Ministry of Municipality.
- Compare effectiveness across the 3 neighborhoods.
- Roll out the most successful intervention municipality-wide.

OUTPUTS

- Participation in the Hifz al-Ni'ma component alone is projected to be 25% of households in al-Soudan, al-Murra and al-Manaseer.
- Participation in the waste separation component alone is projected to be 45% of households in al-Soudan, al-Murra and al-Manaseer.
- 800 households giving away excess food to Hifz al-Ni'ma's nudge trucks in al-Murra.
- 800 households using their Snoonu vouchers after donating to Hifz al-Ni'ma in al-Soudan.
- Residents of 900 households contact Hifz al-Ni'ma after the awareness campaign in al-Manaseer.
- Food waste reports on each neighbourhood by Ministry of Municipality.
- Cycling of 3 food collection trucks in Al-Murra during Ramadan for 3 years collect 2,300 meals.
- 200 tonnes of food waste converted into fertilizer/compost.

SHORT-TERM OUTCOMES

- 55% of household participation in Al-Manaseer, Al-Soudan and Al-Murra areas.
- 60% of low-income workers receive daily meals during Ramadan.
- 20% of low-income families receive daily meals during Ramadan.
- Increase of sustainability awareness causes a decrease to 8 kg food waste/day during Ramadan.
- 45% of food waste turned to fertilizer and distributed to local farms.

LONG TERM OUTCOMES

- Nationwide food waste policy adoption. National food waste decreased to 30% during Ramadan.
- Food waste decreased to 4 kg/day per household during Ramadan.
- Increase of sustainability awareness causes a decrease to 5 kg food waste/day the rest of the year.
- 100% of food waste (50% of all solid waste) turned to fertilizer and distributed to local farms.
